

BLE-XMK

RECHANGER
AIRSOFT

- The aluminum slide is made from precision CNC machining with smooth shape & line to present an unique design and texture.
- New design front end muzzle fastened under lower rail to increase better muzzle velocity performance by extending longer inner barrel without affecting the slide movement.

> Luminous Sights

- It allows quick aim and shoot in dim light environment with precision by using the luminous front sight and rear sight in a low-light environment.

> Special Anti-slip Serration Design

- This design can greatly speed up the loading speed.

Special anti-slip pattern design

> Integrated Compensator (Front End Muzzle)

- Lightweight aluminum alloy.
- The compensator (Front end muzzle) itself does not interfere slide operation and inner barrel. The velocity is also advanced by using a longer inner barrel.

MODEL OPTIONS

BLE-010-CB(Compact Version)

BLE-010-SB(Standard Version)

SPECIFICATIONS

Model	BLE-010-CB / BLE-010-SB
Total Length	211mm
Inner Barrel Length	115mm
Weight	720 / 778 g
Muzzle Velocity	95m/s (312 FPS)
Caliber	6mm
Magazine Capacity	17 / 23 rounds
Frame Material	Nylon Reinforced Polymer
Slide Material	Aluminum
Power	Green Gas
H-up	Adjustable

* Measured w/0.20g BBs and green gas tested @ 25°C room temperature.

* Gun specs will be set differently according to the required settings from each market, the specifications listed above are for general use only.
