EN

- Adapted by the U.S. Special Ops in 2000, MK18 soon became a widely accepted close-range-combat rifle among the troops; with the compact design of barrel, the unique collapsible stock, and simplicity of the body shape, the great fame has been built in the field of CQB either as a firearm or in form of an airsoft gear.
- Four distinguish colors available and fully-reproduced lettering and marking licensed by Daniel Defense.
- Refreshed pattern design of the pads, the ZETA pistol grip and ZETA stock offer direct support with better-fitted shape and reduced slippage from the effort of EMG.
- Equipped with SSS.III E-trigger system, EMG Daniel Defense MK18 MOD1 is enhanced with features such as pre-cocking, smart trigger, etc... Aim for the top, brought to you by ICS.

Smart Trigger

The smart trigger is able to distinguish whether it is time for Burst Mode (light touch) or Full-auto Mode (long, deep press) allows any airsofter plays more instinct and fast. As the new generation of the system has arrived, be ready to be the lightning on the field.

Short Stroke Trigger

Shorter distance trigger travels, faster firing rate you can get. With pre-cocking mechanism, all your moves are able to go like a straight line.

Spring Release Function

The built-in ICS Spring Release mechanism actively protects the spring, piston and your airsoft investment. Whenever the SAFE mode is selected, the spring is automatically released reducing wear off of the spring, and other internals.

EVO Motor

The EVO motor is equipped with high heat-resistant magnets and ball bearings, which has greater heat radiation ability, more power saving, and able to reach higher rpm.
